INDEX TO VOLUME LXVI

ABLATION of superior cervical sympathetic ganglia in rabbit, 519.
Absorption from cloaca in birds, 209.
Acid metabolism and transport of acid, 5.
ADOLPH, E. F. The nature of the activities of the human sweat glands, 445.
Adrenal discharge in the dog, 408.
—— output, effect of asphyxia on, 304.
Adrenalin chlorid, calorigenic action of, 93.
——, perfused, effect of fatigued muscle on, 176.
Adrenals, relationship of, to blood sugar, 659.
Alkaline reserve in rabbits, effects of diet on, 1.
ALLEN, R. S. See CLOUGH, ALLEN and ROOT, 461.
Anoxemia, rôle of, in causation of tetany during hyperpnea, 274.
Antigenic effects of semen, 404.
Asphyxia, effect of, in adrenal output, 304.
Asphyxiation in oviduct of embryos in eggs, 309.
AUSTMANN, K. J. and V. H. K. MOORHOUSE. On the function of the cerebral ventricles. I. Demonstration of small changes in the capacity of the lateral ventricles of the brain, 267.
Autonomics and liver function, 485.

BERGEIM, O. See LUEDERS and BERGEIM, 297.
Blood and urine of alligator, nitrogen distribution in, 145.
——, gases and sugar of, seasonal changes in, 145.
——, influence of diuretics on concentration of, 520.
—— of dogs, effects of temperature on, 191.
——, some conditions affecting catalytic action of, 503.
Blood sugar, increased, coincident with ovulation, 340.
—— ——, relationship of adrenals to, 659.
BODANSKY, M. The production of hypoglycemia in experimental derangements of the liver, 375.
BOOTHBY, W. M. and I. SANDIFORD. The calorigenic action of adrenalin chlorid, 93.
BOVIE, W. T. and G. A. DALAND. New experiments on the sensitization of protoplasm to heat by exposure to light of short wave-length, 55.
Brain, changes in capacity of lateral ventricles of, 267.
—— lesions and gill movements in Necturus, 288.
—— stem, effect of lesions of, in pigeons, 284.
—— ——, studies of, 453.

CALORIGENIC action of adrenalin chlorid, 93.
Catalytic action of blood, some conditions affecting, 503.
Central nervous system, effect of insulin on, 437.
Cerebral ventricles, function of, 267.
CHURCH, J. G. See KING and CHURCH, 414, 428.
Cloaca, absorption from, in birds, 209.
CLOUGH, H. D., R. S. ALLEN and E. W. ROOT, JR. A study of the rabbit as a test animal for determining the potency of insulin preparations, 461.
COWGILL, G. R. Studies in the physiology of vitamins. II. Parenteral administration of vitamin-B—mammalian experiments, 164.
CRILE, G. W., A. F. ROWLAND and S. W. WALLACE. The effect of asphyxia upon the adrenal output as demonstrated by variations in the temperature of the brain, 304.

Culley, P. G. See Snyder, Wells and Culley, 485.

Daland, G. A. See Bovie and Daland, 55.
——. See Forbes and Daland, 50.
Diet, effect of, on insulin hypoglycemia in rabbits, 1.
Diuresis, effect of, on excretion of uric acid, 363.
Diuretics, influence of, on concentration of blood, 520.
Durrant, E. P. See Hoskins and Durrant, 176.

Emulsions and protoplasm, phase reversal in, 124.
Epinephrin output in cats and dogs, 235.

Fatigue, effect of, on perfused adrenalin, 176.
——, peristaltic, 380.
Forbes, A., L. H. Ray and F. R. Griffith. The nature of the delay in the response to the second of two stimuli in nerve and in the nerve-muscle preparation, 553.
Forbes, H. S. and G. A. Daland. Further experiments on the sensitization to heat due to exposure of short wave-lengths, 50.
Food tests, biological, 215.
Flinn, F. B. and E. L. Scott. Some effects of various environmental temperatures upon the blood of dogs, 191.

Gastric contents, trypsin and lipase in, 297.
Gastrin and histamine, effect of, on movements of stomach, 140.
Gesell, R. On the chemical regulation of respiration. I. The regulation of respiration with special reference to the metabolism of the respiratory center and the coördination of the dual function of hemoglobin, 5.
Gill movements in Necturus, and their relation to the central nervous system, 288.
Grant, S. B. The rôle of anoxemia in the causation of tetany during hyperpnea, 274.
Griffith, Jr., F. R. Further evidence regarding the relationship of the adrenals to the amount of sugar in the blood, 659.
——. Reflex hyperglycemia: A study of the carbohydrate moblization effected by afferent crural, sciatic and vagus stimulation, 618.
——. See Forbes, Ray and Griffith, 553.

Hart, V. W. See Porter and Hart, 391.
Heat production, respiratory exchange and, after destruction of temperature-regulating centers of thalamus, 453.
——, sensitization of protoplasm to, 50, 55.
——, sources of, in muscle contraction, 232.
Hemoglobin, function of, in respiration, 5.
Henderson, V. E. Studies in peristaltic fatigue, 380.
Histamine, gastrin and, effect of, on movements of stomach, 140.
Honeywell, H. E. See Riddle and Honeywell, 340.
Hopping, A. Seasonal changes in the gases and sugar of the blood and the nitrogen distribution in the blood and urine of the alligator, 145.
Hoskins, R. G. and E. P. Durrant. The effect of fatigued muscle upon perfused adrenalin, 176.
Hunger, effect of gastrin and histamine on movements of stomach during, 140.
Hunt, C. H., A. R. Winter, J. A. Schultz and R. C. Miller. The mineral metabolism of the lactating and dry goat, 349.
Hyperglycemia, reflex, 618.
Hyperpnea, anoxemia not cause of tetany during, 274.
Hypoglycemia, insulin, in rabbits, effects of diet on, 1.
——, production of, by liver injury, 375.

Insulin, effect of, on central nervous system, 437.

Insulin hypoglycemia in rabbits, effect of diet on, 1.
—— preparations, rabbit as test animal for determining potency of, 461.
——, relation of, to pituitary body, 437.
Intestine, effect of gastrin and histamine on movements of, 140.
——, small, reaction of, to sodium bicarbonate, 414.
IVY, A. C. and D. A. VLOEDMAN. The effect of gastrin and histamine on the movements of the stomach and intestine during hunger, 140.

KING, C. E. and J. G. CHURCH. Further studies of the reaction of the small intestine to sodium bicarbonate, 414.
———. The motor reaction of the muscularis mucosae to some drugs, 428.
KLEITMAN, N. Studies on the physiology of sleep. I. The effects of prolonged sleeplessness on man, 67.

LACKEY, R. W. See ROGERS and LACKEY, 453.
Leucocytes, locomotion of, 180, 185.
Lipase, trypsin and, in gastric contents, 297.
Liver function, autonomic control of, 485.
—— injury, hypoglycemia and, 375.
LOGAN, H. D. See OLMSTED and LOGAN, 437.
LUEDERS, C. W. and O. BERGEIM. The quantitative determination of trypsin and lipase in gastric contents, 297.

McCARTNEY, J. L. Further observations on the antigenic effects of semen, 404.
McCUTCHEON, M. Studies on the locomotion of leucocytes:
I. The normal rate of locomotion of human neutrophilic leucocytes in vitro, 180.
II. The effect of temperature on the rate of locomotion of human neutrophilic leucocytes in vitro, 185.
Metabolism, mineral, of lactating and dry goat, 349.
—— of respiratory center, 5.
MIGNON, H. L. Biological food tests. IV. The protein and the vitamin A content of the English walnut, 215.
MILLER, R. C. See HUNT, WINTER, SCHULTZ and MILLER, 349.
Mineral metabolism of lactating and dry goat, 349.
MOORHOUSE, V. H. K. See AUSTMANN and MOORHOUSE, 267.
MORRIS, J. L. and H. M. REES. The effect of diuresis on excretion of uric acid, 363.
Motor reaction of muscularis mucosae to drugs, 428.
Muscle contraction, sources of heat in, 232.
——, fatigued, effect of, on perfused adrenalin, 176.
——, nerve and, response of, to second stimulus, 553.
Muscular contractions, reflex, in spinal cat, 391.
Muscularis mucosae, motor reaction of, to drugs, 428.

NECTURUS, brain lesions and gill movements in, 288.
Nerve and muscle, response of, to second stimulus, 553.
Nerves, effect of stimulation on blood sugar, 618.

OLMSTED, J. M. D. and H. D. LOGAN. The effect of insulin on the central nervous system and its relation to the pituitary body, 437.
Ovulation, increased blood sugar coincident with, 340.
——, suprarenal hypertrophy coincident with, 322.

PACK, G. T. See UNDERHILL and PACK, 519, 520.
PAGE, I. H. The influence of diet on the alkaline reserve and insulin hypoglycemia in rabbits, 1.
Peristaltic fatigue, 380.
Phase reversal in emulsions and protoplasm, 124.

Pituitary body, relation of insulin to, 437.
Porter, E. L. and V. W. Hart. Reflex contractions of an all-or-none character in the spinal cat, 391.
Proteins of English walnut, 215.
Protoplasm, emulsions and, phase reversal in, 124.
——, sensitization of, to heat, 50, 55.

Rabbit as test animal for determining potency of insulin preparations, 461.
Ray, L. H. See Forbes, Ray and Griffith, 553.
Rees, H. M. See Morris and Rees, 363.
Reflex contractions, all-or-none, in spinal cat, 391.
Reproduction in birds, physiology of, 309, 322, 340.
Respiration, chemical regulation of, 5.
Respiratory exchange and heat production after destruction of temperature-regulating centers of thalamus, 453.
Riddle, O. Studies on the physiology of reproduction in birds:
XIII. Asphyxial death of embryos in eggs abnormally retained in the oviduct, 309.
XIV. Suprarenal hypertrophy coincident with ovulation, 322.
—— and H. E. Honeywell. Studies on the physiology of reproduction in birds. XV. Increased blood sugar coincident with ovulation in various kinds of pigeons, 340.
Rogers, F. T. The relations between lesions of the brain stem, water elimination and body temperature, 284.
—— and R. W. Lackey. Studies of the brain stem. VII. The respiratory exchange and heat production after destruction of the body temperature-regulating centers of the thalamus, 453.
Rogoff, J. M. See Stewart and Rogoff, 235.
Root, Jr., E. W. See Clough, Allen and Root, 461.
Rowland, A. F. See Crile, Rowland and Wallace, 304.

Sandiford, I. See Boothby and Sandiford, 93.
Schultz, J. A. See Hunt, Winter, Schultz and Miller, 349.
Scott, E. L. See Flinn and Scott, 191.
Searles, J. Adrenal discharge in the dog, 408.
Seifriz, W. Phase reversal in emulsions and protoplasm, 124.
Semen, antigenic effects of, 404.
Sharpe, N. C. On absorption from the cloaca in birds, 209.
Sleeplessness, prolonged, effects of, on man, 67.
Snyder, C. D. On the sources of heat in muscle contraction, 232.
——, H. S. Wells and P. G. Culley. Contributions to our knowledge of the autonomic control of liver function. I. The action of autonomomimetic drugs, and of vagal stimulation upon fluid and sugar output from the hepatic veins of the terrapin, 485.
Sodium bicarbonate, reaction of small intestine to, 414.
Spinal cat, all-or-none reflex contractions in, 391.
Sterilization of female by semen injections, 404.
Stewart, G. N. The gill movements in one of the perennibranchiate urodela (Necturus maculatus) and their relation to the central nervous system, 288.
—— and J. M. Rogoff. The average epinephrin output in cats and dogs, 235.
Stimulation, nerve, effect of, on blood sugar, 618.
Stoland, O. O. See Walling and Stoland, 503.
Stomach, effect of gastrin and histamine on movements of, 140.
Sugar of blood in alligator, 145.
Suprarenal hypertrophy coincident with ovulation, 322.
Sweat glands, human, nature of activities of, 445.

Sympathetic cervical ganglia, ablation of, 519.

TEMPERATURE, body, effect of lesions of brain stem on, 284.
——, effect of, on blood of dogs, 191.
——, —— ——, on locomotion of leucocytes, 185.
Tetany during hyperpnea, anoxemia not cause of, 274.
Thalamus, optic, changes following destruction of, 453.
Trypsin and lipase in gastric contents, 297.

UNDERHILL, F. P. and G. T. PACK. Experimental ablation of the superior cervical sympathetic ganglia of the rabbit, 519.
—— —— ——. The influence of various diuretics on the concentration of the blood, 520.
Urie acid excretion, effect of diuresis on, 363.
Urine, blood and, of alligator, nitrogen distribution in, 145.

VITAMIN-A content of English walnut, 215.
Vitamin B, parenteral administration of, 164.
Vitamins, physiology of, 164.
VLOEDMAN, D. A. See IVY and VLOEDMAN, 140.

WALLACE, S. W. See CRILE, ROWLAND and WALLACE, 304.
WALLING, L. and O. O. STOLAND. Some conditions affecting catalytic action of blood, 503.
Water elimination, effect of lesions of brain stem on, 284.
WELLS, H. S. See SNYDER, WELLS and CULLEY, 485.
WINTER, A. R. See HUNT, WINTER, SCHULTZ and MILLER, 349.
